To Whom It May Concern:

We recently used NorthStar Moving Corporation (agents for Moishe's Moving Systems) to move out of our Mercedes Benz dealership, including our parts department which houses thousands of parts and accessories.

We found them to be extremely efficient, economical, and pleasant to work with through out the entire process.

We moved out of our facility to renovate the building. When construction is completed next year we plan to use NorthStar once again to help us move back into the building.

Yours truly,
