

AMERICA'S NEXT
top model

January 24th, 2007

Gadi,

We wanted to send a letter to personally thank you for the outstanding service and generosity extended to "America Next Top Model" during the course of our production.

The Exceptional level of service provided to us stayed constant from estimation through to completion. Every item on the property was handled with extreme care and precision from \$100,000 pieces of art to a \$50 lamp.

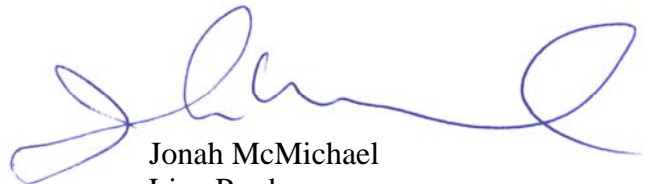

What amazed me the most was your ability to carry out such great service and still be able to keep up with the demanding, and often ambitious, production schedule and have everything completed on time.

We greatly look forward to working with you and NorthStar in the future. I would recommend your services to anyone who requires high quality moving and storage.

Sincerely

Avi Eshed
Production Manager

Jonah McMichael
Line Producer
