To Whom It May Concern:

I would like to personally thank Gadi Avigzer and the NorthStar moving team, for another successful and stress free moving experience.

I have had the pleasure of moving with Gadi and the NorthStar team 3 times in the last 6 years, and I believe it is true what they say, "Three times is a charm".

This particular move was a bit more challenging for me, as we were moving two separate households and combining them into one home. I was particularly stressed out with the timing of the two moves as well as the reconstruction that is currently taking place in the new property.

Gadi assured me that the team could work around any obstacle, and would provide excellent service and care with our property.

The team, headed by Nick, was once again above and beyond my expectations. The team arrived on time, moved quickly, efficiently, and never once caused alarm as they moved expensive furniture and equipment. The team was courteous and friendly, but kept focused on the job and finished well under the time allotted on both moves.

At the end of the move, I once again thought to myself "ah, another stress free move with Gadi and his team!". Amazing! Who has a stress free move? I do!

Thank you Gadi and the NorthStar moving team! As always, you have my highest recommendation!

Sincerely,
