Dear Mr. Katalan,

I want to tell you how pleased I was with all of your employees who were involved with my move last month. The project manager, Ben Cohen, came to my home to discuss what your company could do for me regarding my move from So Cal to No Cal. His knowledge and professionalism is what convinced me to select your company. Also, Carlos from dispatch was very patient and helpful. The delivery guys, Israel, Lebonese and Satena were terrific.

I thank you for taking the time to read this letter. I wish you and your company continued success.

Sincerely,
