

THE CARLYLE
RESIDENCES

August 25, 2009

Dear Ron,

I want to sincerely thank you for your outstanding service with our recent move. We moved our office headquarters and showroom into The Carlyle on Wilshire with the help of your professional crew. As you know, the Carlyle offer luxurious carefree living and the highest scale of amenities to its residents, for this reason we wanted to insure we had an equally qualified moving company. NorthStar Moving was professional and high quality in every way. From their comprehensive packing the day before the move to their careful handle of valuable furniture and artwork on the day of the move, the team of movers was efficient, courteous, and professional. All of our items, which included a marble table top, conference room table, and several of our expensive work of art, were all packed and moved with consideration of our time schedule and their value.

I appreciate working with a moving company that understands. luxury-living, quality, and great service. I highly recommend NorthStar as a high-quality mover that is a pleasure to work with.

Sincerely,

Eli Bar
