Dear Ram:

We are finally "settled" in our new offices and I wanted to thank you for the incredible job your company did moving our office. Moving is never an enjoyable experience, but working with you and your team made the process significantly easier. Even with the unforeseen problems we encountered with an inoperative elevator that morning and rain in the evening, your staff kept their great attitudes and professionalism throughout the day. Additionally, they were very efficient and took great care making sure our furniture arrived to our new destination safely and undamaged.

Beyond the exceptional service and flexibility, your cost estimate was very reasonable as well. Some of the larger moving companies claimed that movers charging less than them would be unreliable, unprofessional and risky to hire. They were totally wrong.

I highly recommend Northstar Moving to anyone who wants to have a low-stress, affordable, high quality and honest company provide a positive moving experience.

Very truly yours,
