To NorthStar Moving Company,

I am writing you to thank you for your professionalism and incredible care in moving my furniture, expensive photography and glassware collections as well as everything else that I own. You guys did a fantastic job. Everyone who was part of this very difficult move was great at their jobs and a pleasure to work with. I also appreciated how fast everyone worked to make this painful but necessary job as easy as possible. Even my dogs appreciated how nice everyone was.

I would recommend your company to anyone who is having the unfortunate experience of moving. If and when I move again I will call you to schedule the move.
